

# nvac®

## products provide total support for ultra precision grinding

"We consider the grinding process as a total system. To meet our customers' needs, we offer peripheral equipment—including grinding wheels—as nvac items."

| Enables high quality grinding without grinding burn. Multi porous type general wheel recommended by NAGASE.

■ **WAP series ( White alumina wheel )**

Applicable work material : Ferrous materials such as hardened steel

(SS, S45C, SKD, SKH, SUS, PD, STAVAX, HPM, FC, SK etc.)

■ **GC series ( Green carbonite wheel )**

Applicable work material : Nonferrous/nonmetallic materials

( Cast iron, Aluminum, Copper etc. )

| This superabrasive wheel, recommended by NAGASE, offers excellent sharpness and long service life.

■ **NRX series ( Diamond wheel )**

Applicable work material : Carbide, Ceramics, SiC, Glass

■ **NRXB series ( CBN wheel )**

Applicable work material : Steel, Hardened steel, Stainless steel

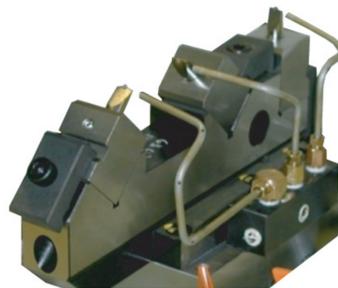

※ We provide grain sizes and shapes according to your request.

## | Truing and Dressing System Provided by NAGASE ※Options

■ **DD double cup truer**

( Ideal for truing and dressing super-abrasive grinding wheels )

■ **3 point dresser**

( Various shapes of grinding wheels can be shaped )

■ **DD swing rotary dresser**

( Forming the grinding wheel into any desired shape )

■ **DD orthogonal rotary dresser**

( Ideal for contouring super-abrasive grinding wheels )

■ **DD horizontal rotary dresser**

( Ideal for contouring general and super-abrasive grinding wheels )

■ **DD single cup truer**

( Ideal for truing super-abrasive grinding wheels )

TOTAL GRINDING SYSTEM

**nvac®**

In addition, we provide grinding aids and measurement systems to enhance machining accuracy and efficiency. If you would like to purchase, please contact our sales staff.
